Our Clients | The law firm's legal advice focuses on German medium-sized companies, but also provides legal services to foreign companies and large international corporations. Thanks to the wide variety of fields of expertise reflected by the practice groups, the law firm is able to provide counsel in all the main areas of commercial law and thus to offer „one-stop“ legal advice with specific contact persons for the client.

Innovation & Legal Tech | We drive innovation, together with our clients for future-oriented solutions. As one of Germany's largest business law firms, our advice is designed to be forward-looking and sustainable. Clients expect innovative approaches to solving their legal issues – a requirement that also applies to optimum management of our clients' projects and cases.

“Steadily expanding law firm that continues to set highlights with its entrepreneurial approach – both in its consulting services and internally – including in cross-border business.”
